Dear Earl- the only marks I've made on this record are the two on the last two pages that I read to you and have again marked in red. All others are the FBI's and the vertical lines in the left margin are the kind Hoover generally made. This is from the main FBIHQ JFK assassination file, Serial 5075. The only copy indicated is for the main Ruby file. DeLoach then headed the Crime Records Division, which was really the FBI's flackery. The left initial on the last page is DeLoaches and the other is Tolson's. MW 10/2/85
